PROFESSIONAL SUMMARY

PROFESSIONAL SUMMARY

Results-driven IT Project Lead and PMP-certified professional with 8+ years of experience delivering enterprise solutions, digital transformation initiatives, and product management across web, mobile, and learning platforms. Proven track record of leading cross-functional teams and managing projects from inception through successful deployment, with expertise in Agile/Scrum delivery, stakeholder management, strategic planning, and business process optimization.

Passionate about leveraging Artificial Intelligence to accelerate digital transformation, with continuous learning and hands-on exploration in Generative AI, Agentic AI, AI-powered automation, prompt engineering, Retrieval-Augmented Generation (RAG), AI governance through self-directed learning, with a focus on enterprise productivity, workflow automation, and digital transformation.

CORE COMPETENCIES

- IT Project & Product Management | Digital Transformation | Team Leadership
- Enterprise Solutions Delivery | Scalable Platform Management | LMS Implementation
- Business Analysis | Requirements Gathering | Solution Architecture
- Agile/Scrum & Waterfall Methodologies | Sprint Planning | Release Management
- Stakeholder Management | Cross-functional Team Collaboration | Vendor Management
- AWS Cloud Infrastructure | System Optimization | Operational Excellence

PROFESSIONAL EXPERIENCE

IT Project Lead

AI Rajhi Group | UAE | July 2020 – Present

- Lead end-to-end delivery of AED 1M+ Kutubi digital reading platform (mobile + web + admin), managing product evolution from initial design through MVP release while coordinating cross-functional teams of 10-15 developers, designers, and QA specialists
- Spearheaded launch and ongoing management of company's online education platform (Moodle-based), serving 200+ students and 50+ teachers with zero downtime through strategic AWS infrastructure scaling and redundancy planning
- Implemented AWS auto-scaling and failover server architecture, achieving 100% uptime and significantly improving operational efficiency for critical learning management systems
- Delivered corporate website revamp project that enhanced user engagement and satisfaction through improved UX/UI design and performance optimization
- Successfully executed small-scale e-commerce platform development, ensuring on-time delivery and meeting business objectives
- Manage complete project lifecycle including requirements gathering, sprint planning, stakeholder coordination, resource allocation, risk management, and quality assurance using Agile/Scrum methodologies
- Author comprehensive Business Requirements Documents (BRDs), user stories, UAT test cases, and technical documentation while maintaining product backlogs and ensuring alignment with business goals
- Serve as primary liaison between business stakeholders and technical teams, conducting daily stand-ups, sprint

retrospectives, and executive status updates using JIRA and ManageEngine.

Project Coordinator – Technical

Multiplex LLC | UAE / June 2016 – December 2019

- Coordinated multiple enterprise-level IT projects across authentication systems, user management platforms, and data-driven solutions
- Facilitated requirements gathering sessions with stakeholders and translated business needs into technical specifications and actionable development tasks
- Supported Agile development teams through sprint planning, backlog grooming, and release coordination while maintaining project documentation and status reports
- Collaborated with cross-functional teams including developers, QA engineers, and business analysts to ensure timely project delivery and quality standards

Web Developer

Consumer Fed, India / August 2011 – May 2014

- Developed and maintained web applications using HTML, CSS, JavaScript, and database technologies
- Collaborated with cross-functional teams to deliver customer-facing web solutions and internal tools
- Supported database management and optimization initiatives for improved application performance

EDUCATION

Master of Business Administration (MBA) – Business Analytics

University of Petroleum and Energy Studies (UPES) | 2024-2026

Bachelor of Technology (B.Tech) – Computer Science Engineering

College of Engineering, Perumon (CUSAT) | 2007 – 2011

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- **Project Management Professional (PMP) – PMI (DEC 2023-DEC 2026)**
- Oracle Certified Professional – Oracle (2014)
- Microsoft Project Management – Udemy
